

9X9 3G-doku 020

Each square should be filled with one number and one letter. The numbers (1-9) form a normal sudoku and the letters (A-H&J) form a normal sudoku. Only the "3G-doku" rule, 'No two squares can contain the same number-letter pair'. Lets you solve either sudoku. The extra grid helps you keep track; but remember to fill it in as you go along.
